

About Coca-Cola Hellenic Russia

✓ Coca-Cola Hellenic is one of the world's largest bottlers of products under the trademark of The Coca-Cola Company. Coca-Cola Hellenic operates in 28 countries and is Europe's leading manufacturer of beverages trademarked by The Coca-Cola Company with sales of more than 2 billion unit cases. The company serves a population of approximately 581 million people, and provides over 40,000 jobs.

✓ In Russia Coca-Cola Hellenic is represented by Coca-Cola HBC Eurasia and owns 14 plants in Moscow and the Moscow region, St. Petersburg, Orel, Nizhny Novgorod, Samara, Voljjskiy, Yekaterinburg, Rostov region, Novosibirsk, Krasnoyarsk and Vladivostok. The company is responsible for the manufacture and sale of both carbonated and non-carbonated soft drinks in Russia, including: Coca-Cola, Coca-Cola Light, Sprite, Fanta, BonAqua mineral water, Nestea ice tea, Powerade isotonic sports drink, burn and Gladiator energy drinks, Schweppes tonic water, kvass Krugka&bochka and drinks under the label Fruktime. Following the acquisition in April 2005 of Multon company, the range of products was expanded to include "Rich"-branded fruit juices, nectars and fruit puree and "Dobry"-branded fruit juices and nectars. In 2012 Multon started production of juice containing drink "Pulpy".

✓ The expansion of the company's product portfolio and the utilization of new categories of production for the purpose of business development is one of Coca-Cola Hellenic's major business strategies. In Russia the company handles distribution of Brown-Forman Corporation premium spirits.

✓ In recent years Coca-Cola Hellenic has established itself as one of the largest investors among manufacturers of consumer goods. Coca-Cola Hellenic in Russia presently employs approximately 13,000 highly qualified and professionally trained employees.

✓ Detailed information on Coca-Cola Hellenic and the company's activities in Russia is available on the company's website www.coca-colahellenic.ru

Russian National Junior Water Prize entered State action plan on holding Russia's Year of Environmental Protection in 2013 in accordance with the Decree of the Government of the Russian Federation № 2189 by 26.11.2012.

RUSSIAN NATIONAL JUNIOR WATER PRIZE

Since 2003

By support of the Ministry of Natural Resources and Ecology of the Russian Federation and State Program for NGOs participating in civil society development.

Organizer – autonomous noncommercial organization "Environmental Projects Consulting Institute", director -Dr. Natalia Davydova, Head of the Contest.

Chairman of the National Nomination Committee – Prof., Dr. A.N. Kosarikov, Honored scientist of the Russian Federation, State Prize Laureate.

The Contest is a part of a Russian National Priority Project "Education".

Objective of the Contest – organization of independent public creative contest among high school students for the best project in the area of protection and restoration of water resources. The contest stimulates creative activities of high school students focusing on problems of drinking water sector, treatment of waste waters, preservation of biodiversity in urban and rural fresh water reservoirs, and studies of correlation of water-related, climatic and other factors.

The contest consists of four stages:

- Municipal stages
- Regional stages
- National stage
- International stage - participation in Stockholm Junior Water Prize.

NOMINATIONS

The winner of national contest in general nomination gets an award statuette “Golden Fish” and represents the Russian Federation at Stockholm Junior Water Prize.

Apart from general nomination, there are several thematic nominations:

- Technologies for drinking water treatment, waste water treatment and water resources conservation
- Protection and restoration of water resources in the Volga river basin
- Water and Atom
- Water and Peace
- Water and Climate
- Seas and Oceans
- Best innovative project
- Nomination of Chairman of National Nominating Committee
- Young teacher – best scientific adviser of the project
- Prize of Federal Agency of Water Resources
